

I can't always get to the phone because I am disabled. I was plagued night and day with annoying telemarketing calls until I signed up for New Jersey's DO NOT CALL list. The results of this excellent law were immediately apparent. The change was like night and day. No more annoying calls during supper, late at night, early in the morning.

Please DO NOT CHANGE NEW JERSEY'S DO NOT CALL LAW just because telemarketers want to again be able to annoy and abuse people who aren't interested in their unsolicited sales pitches.

Thank you,  
Robert DeNezza
